DETAILED ACTION

Election/Restrictions

1. Applicants' election of Group I, claims 1-17, filed April 29, 2004 has been acknowledged. In view of Applicants' remarks and in further consideration a further election of species is made.

2. Group I contains claims directed to the following patentably distinct species of the claimed invention:

Species A: Extrusion process having a shim with a thickness variation of less than about 5 percent and having a thickness of about 30 mil;

Species B: Extrusion process having a shim with a varying thickness profile.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention

3. During a telephone conversation with Mr. Rick Franzen on June 25, 2004 a provisional election was made without traverse to prosecute the invention of Group I, Species A, claims 1-15. Claims 16-22 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by

Art Unit: 1732

37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Rick Franzen on June 25, 2004.

The application has been amended as follows:

- claims 16-22 have been canceled without prejudice to Applicants filing one or more divisional applications.

Reasons for Allowance

- 6. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest an extrusion process for forming an extrudate including, forming a shim with a thickness variation of less than about 5 percent for a shim average thickness of about 30 mil and providing a slot having a height dimension substantially the same as the shim thickness for extruding flowable material through.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1732

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stefan Staicovici, Ph.D. whose telephone number is (571) 272-1208. The examiner can normally be reached on Monday-Friday 9:30 AM to 6:00 PM.
